

# WORLD Hearing Day 2024 Report

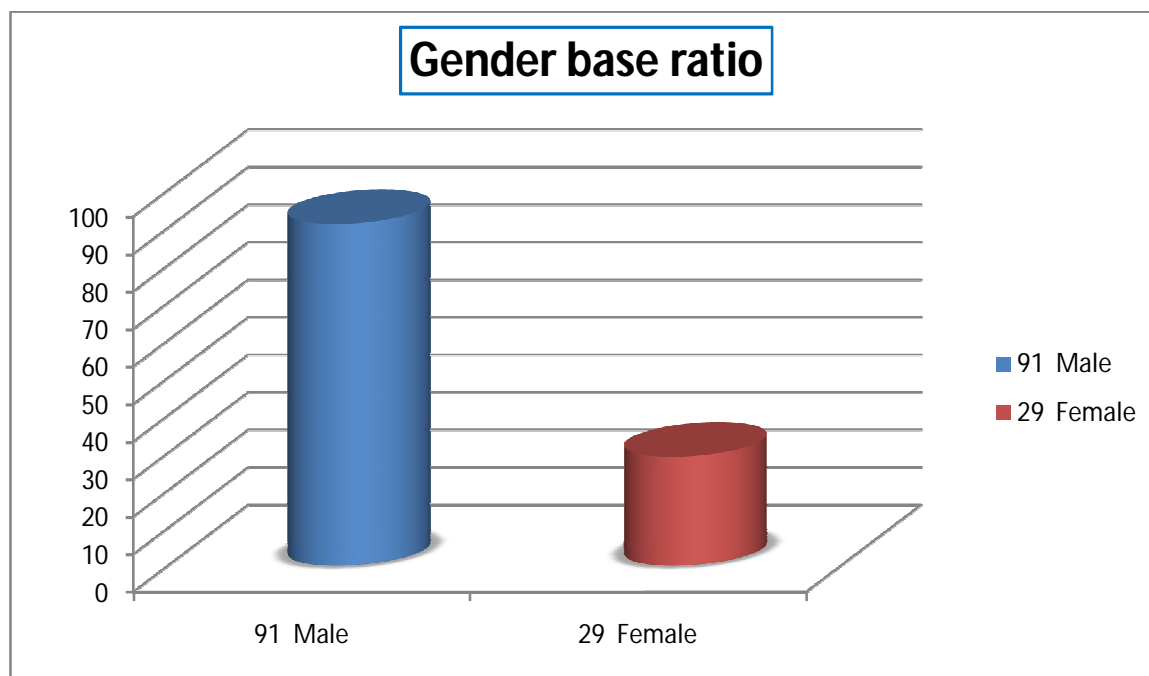

The banner for World Hearing Day 2024 features a blue background with a large, stylized ear graphic composed of concentric red and blue lines. At the top left is the logo of Maulana Azad Medical College, and at the top center is the NIHFW logo with the motto 'आरोग्यम् सुखसम्पदा'. At the top right is the 'Sound Hearing 2030' logo for the Society for Sound Hearing. The WHO logo is in the top left corner of the banner. The main text reads 'WORLD HEARING DAY' in large white letters, followed by 'CHANGING MINDSETS' in red. Below this, it states: 'Changing mindsets is crucial for improving access and reducing the cost of unaddressed hearing loss. Let's make ear and hearing care a reality for all!'. At the bottom, it says '03 March 2024 #WorldHearingDay'.

**Ear & Hearing Screening Camp on 9<sup>th</sup> March, 2024, NIHFV, Munirka, New Delhi**  
**Organized by Maulana Azad Medical College in collaboration with Sound Hearing 2030**

Every year World Hearing Day is celebrated on 3<sup>rd</sup> March. World Hearing Day plays an important role in raising global awareness about hearing health and the prevention of deafness and hearing loss. People use the day as an opportunity to raise awareness of the value of early diagnosis and intervention, to promote access to ear and hearing care services, and to encourage hearing screening. World Hearing Day is an important step towards a world where everyone has access to ear and hearing care, regardless of their financial situation or location, by drawing attention to the impact of hearing loss on people's quality of life and the need for inclusive health policies.

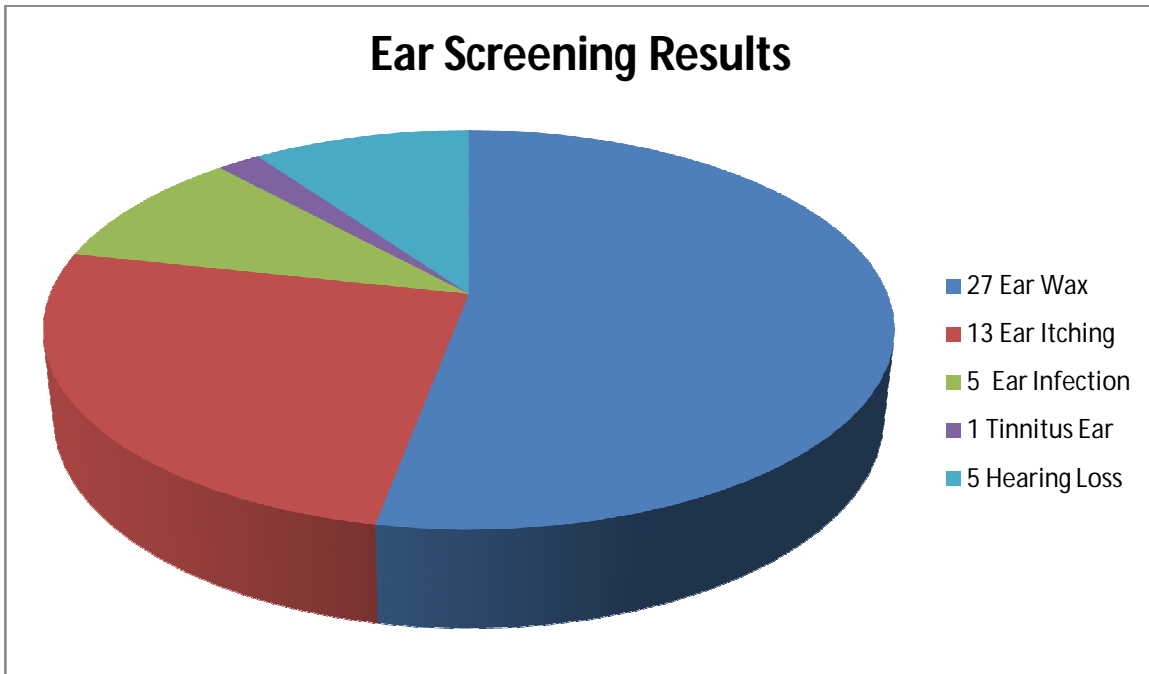

Additional Secretary MS. L.S. CHANGSAN was the chief guest of the Annual day programme of NIHFV. She also visited to the ear and hearing screening camp. She talked about the need of the screening camps in community of Urban and rural area of the state.

In the Ear and Screening Camp, total numbers of 120 people were screened. Out of 120 numbers, 91 Male and 29 were participated in this camp.

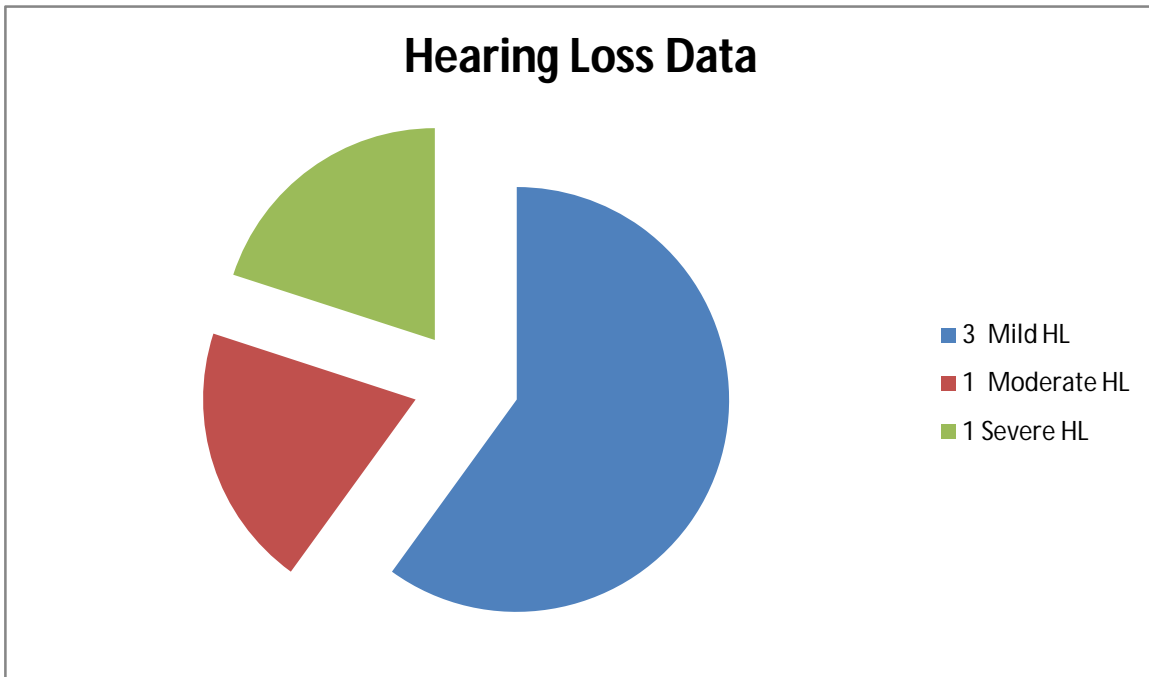

ENT & Community Medicine Department of Maulana Azad Medical College (MAMC), New Delhi, technical support from Sound Hearing 2030 and ALPS International in collaboration with NIHFW clinic organized an Ear & Hearing Screening Camp on the occasion of 47th Annual Day of NIHFW. In this Ear & Hearing Screening camp 120 people were screened out of which 46 were identified in the red flag category and were prescribed appropriate tests & medicines along with the distribution of medicines. 19 of the screened people required Audiometry testing, out of which two were diagnosed with mild hearing loss, two with moderate hearing loss & one with severe hearing loss. Those who needed further management were referred to ENT Department of MAMC. New Delhi.
